Endodontics in General Practice

Tips & Tricks in Modern Endodontics for the General Practitioner

Endodontics has become a very predictable aspect of dental practice and new technology allow us to achieve excellent results even in complex teeth. There are many parts to any endodontic treatment that can go wrong and compromise success. Do you find your working length changes? The apex locator doesn't work? Your root fillings always look short? Have you been breaking files? Mike will discuss some techniques and tips that will help in your every day endodontic treatment, including the latest on preparation techniques and irrigation protocols. This will be supported with current evidence and many case reports.

About the Presenter:

Dr Mike Gordon BDS MDS (Endo) MRACDS (Endo) Specialist Endodontist

Mike is currently working in specialist practice in Hamilton. He graduated BDS from the University of Otago in 1990. After working and owning a share in a private practice in Hamilton for 10 years Mike completed a Masters of Dental Surgery in Endodontics at the University of Otago graduating in 2004 –with Distinction. He gained membership of the Royal Australasian College of Dental Surgeons in endodontics in 2005. He has numerous publications in peer reviewed journals and is actively involved in running continuing education courses and lectures. He has a special interest in evolving technology in endodontics and the operating microscope. Mike is a past President of the Waikato Branch of the NZDA and has memberships with The NZ Society of Endodontics, The Australian and New Zealand Academy of Endodontists and the International Association of Dental Traumatology.
